### ALTERNATIVE INVESTMENTS

Investments referred to as "Alternative Investments" include, but are not limited to, direct participation programs, private equity investments, pooled private investments (such as limited partnerships and limited liability companies), non-publically traded real estate investment trusts, private debt and hedge funds. While these investment types are each different, they do share some common characteristics such as: they are generally illiquid securities that are not listed on any exchange; there is a limited or no secondary trading market for these securities; and, there are typically restrictions on the timing and availability for redemptions. Additionally, private investment contracts, which would include most Alternative Investments, are ineligible for SIPC protection. Valuations of these investments are difficult to obtain and verify. The valuations of these investments presented on this statement have been obtained, unless otherwise noted, from the management, administrator or sponsor of each program (collectively, "Management"), or from a third-party vendor. These valuations have not been independently verified by J.P. Morgan Securities LLC ("JPMS") and do not represent the actual terms at which transactions or securities could be bought or sold or new transactions could be entered into or the actual terms on which existing transactions could be liquidated as of the date of this statement. Values are estimates only and may represent a value as of a date no greater than 18 months prior to the date of this statement. If an estimated value is not provided, valuation information is not available. In some instances, the valuations reflected on this statement may represent original cost, which information may or may not have been provided by Management or the third-party vendor. Valuations are provided for information purposes only and are intended solely for your own use. Please contact us if you wish to obtain additional or more specific information regarding the source(s) of the valuations. Alternative Investments may be reflected on your statement even though they may be held by a third party unaffiliated with JPMS. In such cases, unless JPMS otherwise agrees, JPMS has no responsibility for the verification, valuation, safekeeping or management of those assets.

In as much valuations may have been provided by Management of any program, you should review the operative documentation for each investment for the specific valuation methodology used by Management of that investment. JPMS expressly disclaims any responsibility for (1) the accuracy of the information and the methodology used by the Management in deriving valuations; (2) any errors or omissions in compiling or disseminating the valuations; and, (3) any use to which the valuations are put.

**SPECIFIC NOTICE FOR RETIREMENT ACCOUNTS:** In the case of Alternative Investments, the annual fair market valuations ("FMV") of your account assets are reported by JPMS based on the best information available to JPMS (or its vendor) as of December 31 of the reporting year. If a more accurate valuation is subsequently obtained, the information reported to the IRS may differ from that reported to you on the earlier date and the adjusted value may affect various calculations including, but not limited to, possible required minimum distributions ("RMD"). If you are subject to a RMD, JPMS may notify you of the adjusted value. Additionally, certain Alternative Investments (e.g., private equity funds) may require capital calls of their investors. If capital calls are required in connection with assets held by your retirement account, the funds to meet such calls must be paid from your retirement account. The preceding information should not be construed as tax or investment advice. Please consult your tax or investment advisor for questions concerning your tax or financial situation, including any questions regarding the effect of these characteristics of Alternative Investments.

**Special Notice for DPP and REIT Securities:** DPP or REIT securities are not listed on a national securities exchange, are generally illiquid and, even if a customer is able to sell the securities, the price received may be less than the per share estimated value provided in the account statement.

### LARGE TRADER REPORTING

A "large trader" is a legal entity or natural person who, directly or indirectly, through the exercise of investment discretion, effects transactions in the National Market System (NMS) securities that equal or exceed either:

- 2 million shares or \$20 million during any calendar day; OR
- 20 million shares or \$200 million over any calendar month.

The U.S. Securities and Exchange Commission (SEC) Rule 13h-1 Large Trader Reporting System requires U.S. and non-U.S. market participants who meet the definition of large trader to:

- File an electronic Form 13H with the SEC (via EDGAR) to obtain a large trader identification number (LTID); and
- Promptly disclose to U.S. broker-dealers that execute trades or carry accounts for the large trader, their LTIDs and the accounts to which the LTIDs apply.

If you are a large trader and have completed a Form 13H, you will receive an LTID from the SEC. In order to ensure that LTID's are captured and reported as required under the SEC rule, you are required to promptly report your LTID to us and identify each account to which the LTID should be applied.

**Messages (continued)****ELECTRONIC FUNDS TRANSFER NOTICE**

We will determine whether an error occurred within 10 business days after we hear from you and will correct any error promptly. If we need more time, however, we may take up to 45 days to investigate your complaint or question; for errors involving new accounts or foreign-initiated transactions, we may take up to 90 days to investigate. We will tell you the results within three business days after completing our investigation. If we decide that there was no error, we will send you a written explanation. You may ask for copies of the documents that we used in our investigation.

**EXTENDED HOURS TRADING RISK DISCLOSURE**

You should consider the following points before engaging in extended hours trading. "Extended hours trading" means trading outside of "regular trading hours." "Regular trading hours" generally means the time between 9:30 a.m. and 4:00 p.m. Eastern Standard Time.

**Risk of Lower Liquidity.** Liquidity refers to the ability of market participants to buy and sell securities. Generally, the more orders that are available in a market, the greater the liquidity. Liquidity is important because with greater liquidity it is easier for investors to buy or sell securities, and as a result, investors are more likely to pay or receive a competitive price for securities purchased or sold. There may be lower liquidity in extended hours trading as compared to regular market hours. As a result, your order may only be partially executed, or not at all.

**Risk of Higher Volatility.** Volatility refers to the changes in price that securities undergo when trading. Generally, the higher the volatility of a security, the greater its price swings. There may be greater volatility in extended hours trading than in regular market hours. As a result, your order may only be partially executed, or not at all, or you may receive an inferior price in extended hours trading than you would during regular market hours.

**Risk of Changing Prices.** The prices of securities traded in extended hours trading may not reflect the prices either at the end of regular market hours, or upon the opening the next morning. As a result, you may receive an inferior price in extended hours trading than you would during regular market hours.

**Risk of Unlinked Markets.** Depending on the extended hours trading system or the time of day, the prices displayed on a particular extended hours trading system may not reflect the prices in other concurrently operating extended hours trading systems dealing in the same securities. Accordingly, you may receive an inferior price in one extended hours trading system than you would in another extended hours trading system.

**Risk of News Announcements.** Normally, issuers make news announcements that may affect the price of their securities after regular trading hours. Similarly, important financial information is frequently announced outside of regular trading hours. In extended hours trading, these announcements may occur during trading, and if combined with lower liquidity and higher volatility, may cause an exaggerated and unsustainable effect on the price of a security.

**Risk of Wider Spreads.** The spread refers to the difference in price between what you can buy a security for and what you can sell it for. Lower liquidity and higher volatility in extended hours trading may result in wider than normal spreads for a particular security.

IMPORTANT INFORMATION REGARDING PURCHASES INDICATED AS AVERAGE PRICE

Your orders are processed in either (1) one execution at the confirmed price or (2) more than one execution, in which case the confirmed price is an average price. Please contact your J.P. Morgan representative for details regarding actual prices.

EDELIVERED TRADE CONFIRMATIONS

As a reminder, if you've elected to receive trade confirmations by electronic delivery, you can find current and past copies online in the Trade Confirmations section under Statements & Documents. You can also find disclosures and important information about those trades, via a link on that page titled "See important disclosures for your confirmations".

CUSTOMER FREE CREDIT BALANCES

For accounts that are held at JPMS, customer free credit balances may be used in this firm's business subject to the limitation of 17CFR Section 240.15c3-3 under the Securities Exchange Act of 1934. You have the right to receive from us in the course of normal business operation, upon demand, the delivery of:

- any free credit balances to which you are entitled
- any fully-paid securities to which you are entitled
- any securities purchased on margin upon full payment of any indebtedness to us

For clients enrolled in a sweep program, the balance in any bank deposit account or shares of any money market mutual fund in which you have a beneficial interest can be withdrawn or liquidated on your order and the proceeds returned to your securities account or remitted to you.

If this is a margin account and we maintain a special memorandum account for you, this is a combined statement of your general account and a special memorandum account maintained for you under Section 220.6 of Regulation T issued by the Board of Governors of the Federal Reserve System. The permanent record of this separate account, as required by Regulation T, is available for your inspection.

Unless we hear from you to the contrary, it is our understanding that any free credit balances in your account are being maintained to facilitate your intention to invest such amounts through us.

MARGIN ACCOUNT REMINDERS

If you own a margin account, we would like to remind you that:

Securities and other assets in your account are our collateral for any margin loan made to you. If the securities and other assets in your account decline in value, so does the value of the collateral supporting your loan, and, as a result, we can take action, such as issue a margin call and/or sell securities or other assets in any of your accounts held at J.P. Morgan Securities LLC to maintain the required equity in your account. It is important that you fully understand the risks involved in trading securities on margin. These risks include the following:

- You can lose more funds than you deposit in your margin account.
- We can force the sale of securities or other assets in your account(s).
- We can sell your securities or other assets without contacting you.
- You are not entitled to choose which securities or other assets in your account(s) are liquidated or sold to meet a margin call.
- We can increase our "house" maintenance margin requirements at any time and are not required to provide you with advance written notice.
- You are not entitled to an extension of time on a margin call.

Further, if you have a margin account with us, as permitted by law we may use certain securities in your account for, among other things, settling short sales and lending the securities for short sales, and as a result may receive compensation in connection therewith. If you carry a margin balance, your account statement will reflect the current annual interest rate applicable to your margin loan. Please review the current rate, as under certain circumstances the rate may change without advance notice. If you have any questions or concerns about your current interest rate, please speak to your J.P. Morgan representative.

If you are a customer with a margin account, you have consented to our right (to the extent permitted by applicable law) to use, lend or pledge any securities held by J.P. Morgan Securities LLC in your margin account. In certain circumstances, such loans or other use may limit, in whole or in part, your ability to receive dividends directly from the issuing company and/or your right to exercise voting and other attendant rights of ownership with respect to the loaned, sold or pledged securities. Such circumstances include, but are not limited to, loans of securities that you own in your margin account that continue over record dates for voting purposes and ex-dividend dates for dividend distributions. If you do not receive dividends directly from the issuing company, you may receive payments-in-lieu of dividends, which could cause you to lose the benefit of the preferential tax treatment accorded to dividends.

For questions, please contact us using the information provided on the front of this statement.

IMPORTANT INFORMATION ABOUT AUTOMATIC REINVESTMENTS

Automatic Reinvestment transactions excluding those conducted by DTC or in open ended mutual funds are processed by J.P. Morgan Securities LLC (JPMS) on an agency basis.

JPMS provides you with the ability to enroll in a program to re-invest any and all dividend, capital gains and return of capital distributions (collectively "Distributions") for securities eligible for participation (the Program). By participating in the Program, all dividends and capital gains distributions paid on eligible accounts or individual securities you have selected will automatically be reinvested into the shares of the same security. The important terms of the Program include:

- **Voluntary Participation.** Participation in the Program is voluntary and you may modify or discontinue your participation at any time. You may enroll by specifying individual securities or have all eligible securities in your account participate in the Program; modify your elections; or unenroll from the Program through the website or by contacting your PCA or FA.
- **Trade Execution.** With the exception of open ended mutual funds, provided you are enrolled in the Program prior to the record date, JPMS reinvests the Distributions from an eligible security on the pay date of the Distribution, at an average weighted price. For certain securities, reinvestment may occur through the Depository Trust Company (DTC), which may be later than the pay date. There may be a difference in price depending on whether the Program trade is made through J.P. Morgan or DTC. These transactions will post to your account when the shares are made available to JPMS by DTC and will be reflected on your statement.
- **No Fees.** No commission or fee are charged for Program trades.
- **Fractional Shares.** JPMS will credit to your account the number of shares equal to the amount of your funds to be reinvested in a particular security divided by the purchase price per share. If made available for your account, participation in the Program may give you interests in fractional shares of securities, which JPMS calculates to five decimal places. You will receive dividend payments proportionate to your partial share holdings.
- **Confirmation of Transactions.** All Program trades will be reflected on monthly account statements. You will not receive separate immediate confirmations for Program trades. You may request the details of any Program trade by contacting JPMS. Transactions that are not part of the Program will continue to receive confirmations contemporaneously with the trade.
- **No Recommendation.** The inclusion of any security in the Program is not a recommendation by JPMS to buy, hold or sell such security. Participation in the Program does not assure profits on your investments and does not protect against loss in declining markets.
- **Eligibility.** Generally, all brokerage accounts are eligible for participation as are most equities, open ended mutual funds, closed end funds and ETFs. Any exclusions will be identified at the time you are enrolled.
- **Program Changes.** Program participants will be notified in advance if there are any material changes to the Program though no notice may be given if there are changes to the eligibility of any particular security.

IMPORTANT UPDATES TO STRUCTURED PRODUCTS

Structured products, including market linked CDs, are marked to market (or priced) on a daily basis. Prices may fluctuate and these investments may be worth less or more than the initial purchase price at maturity. There is no guarantee that a secondary market will exist.

For questions, please contact us using the information provided on the front of this statement.

SHORTENED SETTLEMENT CYCLE BRINGS INVESTOR BENEFITS

On May 28, many U.S. security settlement cycles transitioned from a two-day cycle (T+2) to a more efficient one-day cycle (T+1).

Accelerating the settlement cycle allows for a more streamlined and agile market and smoother trade executions, with benefits such as:

- Greater flexibility in your portfolio, as you can buy and sell eligible securities faster.
- 50% quicker access to payments from the sale of eligible securities.
- More secure transactions with minimized exposure to counterparty and market risk.

What you need to know

- Securities in the new T+1 settlement cycle include corporate and municipal bonds, unit investment trusts, exchange-traded funds, American Depositary Receipts, rights, warrants settling at the Depository Trust Corporation (DTC), and non-agency Mortgage-Backed Securities (MBS) bonds.
- Securities not impacted by U.S. T+1 include firm commitment equity and debt offerings, U.S. government-issued securities, mutual funds, and security-based swaps.
- Spot foreign exchange transactions in most currency pairs remain at two-day processing. If you conduct U.S. securities transactions that require currency conversion, please review how to fund the transaction with one-day processing to avoid settlement failures.

To ensure your transactions are covered to avoid overdrafts and trade failures with the new T+1 settlement cycle that took effect on May 28, you will need to:

- Make funds available one day earlier if you are purchasing securities.
- Have securities available (in good deliverable form) one day earlier if you are selling securities.
- Submit all allocations to J.P. Morgan by 7 p.m. Eastern Time on the trade date.

We're here to help

Please contact us at the number on the front of your statement if you have questions about how this change may affect you.

Effective May 22, 2024, the SEC increased the rate of this fee from \$0.000008 to \$0.0002780. This fee is calculated by multiplying the principal amount of trade by the new rate.

UPDATES TO THE GUIDE TO INVESTMENT SERVICES AND BROKERAGE PRODUCTS PART 1

We have updated our Guide to Investment Services and Brokerage Products (the "Guide") and the following is a summary of the those updates. To learn more, please review the current version of the Guide at [jpmorganinvestment.com](http://jpmorganinvestment.com).

**Investment Accounts & Services**

Under "A. Different Types of Investment Accounts," in "Brokerage Accounts," we replaced existing language with revised language stating our fiduciary obligations when we make investment recommendations to you for your qualified retirement plan account or IRA. When we provide such fiduciary investment recommendations, we are required under a special rule to, among other things, act in your best interest and not put our interest ahead of yours. However, there are situations where we are not considered a fiduciary under this special rule, such as when we merely provide general investment information and education, or when you take an action not based on our recommendation.

**State-Specific Information**

We added a new section, "C. Missouri and Wyoming," stating how Missouri and Wyoming have adopted rules that require us to provide disclosures and, in certain cases, obtain your consent, when we intend to make investment-related decisions or recommendations that incorporate a social objective.

**Investment Accounts & Services**

- Under "D. Different Types of Advisory Accounts," we removed language noting the J.P. Morgan Automated Investing Program is expected to be decommissioned on or about April 20, 2024.
- Under "E. Advisory Account Fees," we removed language noting fees and costs associated with J.P. Morgan Automated Investing can be found at [chase.com/online-investing-pricing](http://chase.com/online-investing-pricing).

**Products Available for Brokerage Accounts - Fixed Income/Bonds and Structured Investments**

- We added language indicating we may recommend certain investment products for a brokerage account, which are offered by a limited number of sponsors, managers, issuers, and providers after we have conducted appropriate due diligence.
- Under "B. Fixed Income/Bonds," in "Description," we clarified there are different types of income products and the list in the Guide is illustrative of some, but not all, of the bonds available to investors and their typical features.
- Under "B. Fixed Income/Bonds," in "Description," under "Municipal Bonds," we removed language stating municipal bonds are loans investors make to state and local governments.
- Under "B. Fixed Income/Bonds," in "Fees/Markups," we added U.S. government agency bonds as an asset class with a maximum mark-up (\$/bond) of \$1.50.
- Under "E. Structured Investments," in "Risks and other relevant information," we clarified structured products are subject to the issuer's and the guarantor's, if any, financial ability to meet their payout obligations.

STATEMENT SUMMARY	BROKERAGE	IMPORTANT INFORMATION
-------------------	-----------	-----------------------

**Important Information about Your Account Statement(s)**

Unless otherwise indicated, accounts are held at J.P. Morgan Securities, LLC (JPMS), member FINRA and SIPC. JPMS is not a member of the Federal Deposit Insurance Corporation (FDIC).

**NON-DISCRETIONARY:** JPMS brokerage accounts are non-discretionary and all investment decisions are made by the client. For managed accounts, discretionary services are provided by JPMS, an affiliate or an authorized third party.

**ACCOUNT PROTECTION:** As a member of the Securities Investor Protection Corporation (SIPC), JPMS provides account protection for the net equity of a customer's funds and securities positions. SIPC provides \$500,000 of primary net equity protection, including \$250,000 for claims for cash (SIPC Coverage). Account protection applies when a SIPC member firm fails financially and is unable to meet its obligations to its securities customers, but does not apply to losses from the rise or fall in the market value of investments or to SIPC ineligible assets such as futures, options on futures, foreign exchange transactions, or any investment contracts that are not registered as securities or deposit account balances. For more information about SIPC Coverage, including the SIPC Brochure, visit [www.sipc.org](http://www.sipc.org) (follow the link to How SIPC Protects Investors) or call SIPC at (202) 371-8300.

**CUSTODY:** JPMS carries your account and acts as your custodian for funds and securities received, which have been deposited directly with us or received as a result of transactions we process for your account. Inquiries regarding your Statement may be directed to JPMS at (347) 643-9953

As used in the course of these statements, "J.P. Morgan" is the global brand name for JPMorgan Chase & Co. and its subsidiaries and affiliates worldwide.

**MARKET PRICES:** The market value of your holdings is as of the last business day of the statement period or the last available price. Prices for determining market values represent estimates. These estimates are obtained from multiple sources deemed to be reliable. This information is not guaranteed for accuracy and is furnished for the exclusive use of the client.

J.P. Morgan makes no representation, warranty or guarantee, express or implied, that any quoted value represents the actual terms at which securities could be bought or sold or new transactions could be entered into, or the actual terms on which existing transactions or securities could be liquidated. Such values are only indicative.

**ESTIMATED PRICING AND COST BASIS:** Certain assets, including but not limited to, pooled and private investments, non-publicly traded and infrequently traded securities, derivatives, partnership interests and tangible assets are generally illiquid, the value of such assets may have been provided to us by third parties who may not be independent of the issuer or manager. Such information is reflected as of the last date provided to us, and is not independently verified.

Pricing estimates may be based on bids, prices within the bid offer spread, closing prices or matrix methodology that uses data relating to other securities whose prices are more ascertainable to produce a hypothetical price based on the estimated yield spread relationship between the securities. Pricing estimates do not constitute bids for any securities. Actual prices realized at sale may be more or less than those shown on your statement.

**Unpriced Direct Participation Program (DPP) and Real Estate Investment (REIT) Securities:** DPP and REIT securities are generally illiquid and the value of the security will, generally, be different

from its purchase price. Accurate valuation information is not available. The total cost basis for each security position and the unrealized gain/loss are provided solely as a general indication of performance and should not be used for tax purposes or otherwise relied upon without the assistance of your tax advisor. With respect to security positions received into your account, cost basis information, if any, has been provided by you. Further information is available upon request.

You may hold positions where the original cost basis has been adjusted to reflect amortization or accretion.

For Regulated Investment Companies or Dividend Reinvestment Plan sales, for which the average price method has been chosen, positions are closed out on a First-In-First-Out (FIFO) basis.

These statements are not official documents for income tax reporting purposes and should not be relied upon for such purposes, including determination of income, cost basis, amortization or accretion, or gain/loss. Such information, which may be inaccurate, incomplete or subject to updating, should be confirmed with your records and your tax advisor.

**DIVIDEND INCOME:** Dividends credited to your account may include capital gains, non-taxable dividends and/or dividends on foreign stock. You may wish to consult your tax advisor with regard to your tax liability on these dividends.

**ESTIMATED ACCRUED INCOME, ESTIMATED ANNUAL INCOME AND ESTIMATED YIELD CALCULATIONS:** The following calculation descriptions are provided for your reference. Please note that other factors may affect your specific calculations, so if you would like more information, please contact your J.P. Morgan representative or call us at the number on the front of this statement. In general, **Estimated Accrued Income** is calculated by multiplying the current coupon rate with the current face amount for the number of days since the bond's last interest payment. **Estimated Annual Income (EAI)** is calculated by multiplying either the current coupon rate or an estimated annual dividend (generally calculated by annualizing the most recent regular cash dividend) by the quantity of the security held. For balances other than sweep program balances, **Estimated Yield (EY)** is calculated by dividing EAI by the market value of the security. You should also know that: (i) the figures shown in this statement are estimates based on mathematical calculations using data obtained from outside sources; they are provided for informational purposes only, and are not a projection or guarantee of future returns. (ii) because prices of securities, coupon and dividend rates are subject to change at any time, these estimates should not be relied upon exclusively for making investment, trading, or tax decisions. (iii) because different asset types (e.g., equities versus fixed income securities) tend to have different investment characteristics, these estimates should not be compared across asset types; (iv) EAI and EY for certain types of securities might include return of principal or capital gains, in which case the EAI and EY would be overstated. There is no guarantee that your investments will actually generate the EAI or EY presented, and your actual income and yield might be higher or lower.

**IMPORTANT INFORMATION REGARDING AUCTION RATE SECURITIES (ARS):** ARS are debt or preferred securities with an interest or dividend rate reset periodically in an auction. Although there may be daily, weekly and monthly resets, there is no guarantee that there will be liquidity. If there are not enough bids at an auction to redeem the securities available for sale, the result may be a failed auction. In the event of a failed auction, there is no assurance that a secondary market will develop or that the security will trade at par or any other price reflected on statements and online. Accordingly, investors

should not rely on pricing information appearing in their statements or online with respect to ARS. When J.P. Morgan is unable to obtain a price from an internal or outside source for a particular ARS, the price column on your statement will indicate "unpriced". A description of J.P. Morgan's practices and procedures regarding ARS is available at [www.jpmorgan.com/muniars](http://www.jpmorgan.com/muniars).

**VALUATIONS OF OVER-THE-COUNTER DERIVATIVE TRANSACTIONS:** Valuations of over-the-counter derivative transactions, including certain derivatives-related deposit products, have been prepared on a mid-market basis. These valuations are sourced from the various issuers of the securities, affiliates or they are sourced from a third party valuation provider. J.P. Morgan expressly disclaims any responsibility for (1) the accuracy of the models or estimates used in deriving the valuations, (2) any errors or omissions in computing or disseminating the valuations, and (3) any uses to which the valuations are put. Valuations are provided for information purposes only and are intended solely for your own use. Please refer to the trade confirmation for details of each transaction.

**UNPRICED SECURITIES:** When we are unable to obtain a current value from an internal or outside source for a particular security, the price column on your statement will indicate "Unpriced." Although such securities may have value, please note that the value of a security indicated as "Unpriced" will not be included in your overall current market value as reflected on the statement.

**RESTRICTED SECURITIES:** Restricted Securities (typically noted as "Restricted" or "RSTD" in the security description) have not been registered under the Securities Act of 1933 and may not be "freely traded." Since restricted securities are subject to certain restrictions which may render them illiquid or less liquid than freely-tradable shares, there can be no assurance a secondary market exists. While we typically use the value of the registered/unrestricted security of the same issuer and same class for statement (and other) reporting purposes, the price realizable in a sale of the securities may be less than the "Market Value" indicated and could be zero. No attempt has been made to independently value the specific security subject to its restriction. Additionally, inclusion of pricing of these holdings will result in the aggregated value of your portfolio as reflected on this report being overstated by an amount equal to the difference (if any) between the value of the freely-traded underlying security and the actual value of your restricted shares. For additional information on pricing, please see the "Market Prices" paragraph above.

**THIRD PARTY INFORMATION:** This statement contains (i) information obtained from multiple direct, indirect, affiliated, unaffiliated, public and proprietary data sources (including, but not limited to identifying information, market data, calculated data, reference data, valuations, ratings, coupon and dividend rates and other fundamental data) and (ii) information which is calculated based upon such information (including but not limited to, market values, Current Yield and Estimated annual income). Although your Custodian believes these sources and the sources of market values are reliable, it does not independently review or verify such information and neither your Custodian nor any source will have any duty or obligation to verify, correct, complete, or update any such information. Such information is being provided to you with all faults for use entirely at your own risk; without any warranty whatsoever by your Custodian, its affiliates or any such source. Neither your Custodian or its affiliates nor any such source shall have any liability whatsoever relating to any inaccuracy or lack of timeliness or completeness of such information or any use thereof or for omissions therefrom nor for any lost profits, indirect, special or consequential damages. Moreover, such sources retain exclusive proprietary rights in such information. You may use such information only for your internal use and purposes and not for reuse (other than in connection with the transaction or position for which the information is provided) or retransmission without prior written approval of the source, or for any unlawful or unauthorized purpose.

**METHODS OF COMPUTING INTEREST ON DEBIT BALANCES:** Interest is charged on a day by day

basis for any day that there is a net debit balance in your overall account. The calculation is made on a 360-day basis at the rate or rates shown on the statement. Interest rates may be changed from time to time with fluctuating money market rates or for other reasons.

**DEBIT BALANCES:** Please note that if you see a Debit Balance in the Assets and Liabilities Summary on this statement, we may be required to temporarily suspend dividend reinvestment plan ("DRIP") functionality and/or liquidate securities held in your account to fund and eliminate the debit balance. This message does not apply to approved Margin Accounts in good standing. If you have any questions, please call the appropriate number on the front of this statement.

**FOR OPTIONS ACCOUNTS:** Further information with respect to commissions and other charges related to the execution of listed options transactions has been included on confirmation of such transactions previously available to you and such information will be made available to you promptly upon written request.

**PARTIAL CALLS:** If a partial call is made with respect to an issue of securities included in your Accounts we will allocate the call by a method we deem fair and equitable.

**BEARER BONDS:** If any securities held by us for your account are bearer obligations which have been issued since December 31, 1982 with original maturities of more than one year, we agree that we will satisfy the conditions set forth in subdivisions (i), (ii) and (iii) of the Treasury Regulation Section 1.165-12(c)(3) and covenant that we will comply with the requirements of Treasury Regulation Section 1.165-12(c)(2)(iii) concerning the delivery of such bearer obligations.

**MESSAGE FOR ACCOUNTS WITH NON-US DOLLAR ACTIVITY:** The holdings listed within each asset class are segregated by currency. For Non-USD denominated holdings, both the USD and local currency valuations and total asset class valuations, as calculated by the exchange rate stated, are provided. Activity will also be presented by currency. Non-USD activity will display both USD and local currency valuations, as calculated based on the exchange rate of the activity date. All summary information presented in this statement is presented in USD, unless specifically noted as presented in non-USD currency.

**FINANCIAL STATEMENT:** A financial statement for JPMS is available for your personal inspection at our office, or a copy will be mailed to you upon written request.

**REPORTABLE TO THE INTERNAL REVENUE SERVICE:** As required by law, at year end, we will report to you and to the Internal Revenue Service and to certain states, certain information on sales (including short sales), dividends, and various types of interest that have been credited to your account.

**IN CASE OF ERRORS OR QUESTIONS ABOUT YOUR ACCOUNT STATEMENT:** Please review this statement closely and contact us as soon as possible if you notice an error (including things like possible unauthorized trading activity, unrecorded dividend payments or improper payments or transfers).
